

AGENDA

Australia-Japan Coal Technology Workshop

Date: Thursday 10 March 2011, 9:00am

**Venue: Melbourne Convention and Exhibition Centre,
1 Convention Centre Place South Wharf Melbourne Australia**

Item	Time	Topic	Speaker
Low Emissions Coal Policy Session			
<i>Chaired by Margaret Sewell, Division Manager, Clean Energy Division, RET and Masamichi Hashiguchi, Director, Coal Division, METI</i>			
Overview of Low Emissions Coal Policies and Programs			
	9:00-9:10	Overview of Australia's low emissions coal technology policies	Margaret Sewell – RET
	9:10-9:20	Overview of Japanese Clean Coal Policy	Masamichi Hashiguchi – Coal Division, METI
	9:20-9:30	Research program for low emissions coal technologies	Noel Simento – ANLEC R&D
	9:30-9:40	NEDO's R&D Activities and international collaborative activities on Clean Coal Technology	Shunichi Yanai – NEDO
	9:40-9:50	Collaboration on the development of low emissions coal technologies	John Carras – CSIRO
	9:50-10:00	Developments in CO2 Storage in Australia	Barry Hooper – CO2CRC
	10:15-10:30	Discussion of key issues	
	10:30-10:45	MORNING TEA	
Research and Coal Technology Projects			
	10:45-10:55	Progress and future directions in implementing low emissions coal projects in Queensland	John Skinner – Queensland Government
	10:55-11:05	Progress and future directions in implementing low emissions coal projects in NSW	Brad Mullard – NSW Department of Industry and Investment
	11:05-11:15	Cooperative projects in Australia	Yasushi Kawamura– JCOAL
	11:15-11:25	Australian industry's contribution towards developing low emissions coal projects	Samantha McCulloch – ACA
	11:25-11:35	Callide Oxyfuel Project Update	Nobuhiro Misawa – J-POWER
	11:35-11:45	Collaboration on low emissions coal technology projects in Victoria	Dr Richard Aldous – Victorian Government
	11:45-11:55	Development of High Efficiency Coal Gasification Technology and Its Application to Low Rank Coal	Takeo Kawase – Brown Coal Business Research Australia
	11:55-12:05	BCIA's role in supporting low emissions technologies	Gerry Morvell – Brown Coal Innovation
	12:05-12:15	Update of CO2 free hydrogen chain project	Eiichi Harada – Kawasaki
	12:15-12:25	Utilization of Australian coal in Low Carbon Society	Takaya Watanabe – MHI

AGENDA

Australia-Japan Coal Technology Workshop

Date: Thursday 10 March 2011, 9:00am

Venue: Melbourne Convention and Exhibition Centre,
1 Convention Centre Place South Wharf Melbourne Australia

	12:25-12:35	Discussion of key issues	
	12:35-12:45	Agreement of session outcomes	
	12:45-1:45	LUNCH	
Coal Supply and Infrastructure Session <i>Chaired by – Michael Alder, Manager, Coal Industry and Mine Safety Section, RET, and Masamichi Hashiguchi, Director, Coal Division, METI</i>			
	1.45-1.55	Japanese Perspectives on Australian Coal Infrastructure and Supply Issues	Masamichi Hashiguchi - METI
	1.55-2.05	Australian Government Perspectives on Australian Coal Infrastructure and Supply Issues	Michael Alder – RET
	2.05-2.35	Queensland Coal Infrastructure Developments and Perspectives – including impact of recent weather events	David Stolz – Queensland Dept of Infrastructure and Planning
	2.35-2.50	AFTERNOON TEA	
	2.50-3.20	New South Wales Coal Infrastructure Developments and Perspectives	Brad Mullard – NSW Department of Industry and Investment
	3.20-3.35	Discussion	
	3:35-3:45	CLOSE
